

SCOPE OF WORK

Project: Pali Highway Resurfacing, Vineyard Boulevard to Waokanaka Street
District of Honolulu, Island of Oahu

Project No.: NH-061-1(036)

BACKGROUND

Project Location. Pali Highway M.P. 0.00 to M.P. 2.64

SCOPE OF SERVICES

Assist the Hawaii State Department of Transportation's (HDOT's) Highway Division in construction management services for this project. Project may require day, night, and weekend work.

STAFFING NEEDS

HDOT requires the Consultant to provide one construction manager (equivalent to a State Highways Engineer V), one field engineer (equivalent to a State Highways Engineer III), one senior construction inspector (equivalent to a State Highways Construction Inspector V), one construction inspector (equivalent to a State Highways Construction Inspector IV) and one field clerk on a full-time basis and one public relations specialist and one scheduler on a part-time basis to assist the Highways Division during the construction of this project. The above is an estimate of the required manpower. The State reserves the right to adjust the manpower requirements as necessary during the project duration. Provide resumes of at least two qualified construction managers, field engineers, senior construction inspectors, construction inspectors and field clerks and resumes of at least one qualified public relations specialist and scheduler that are anticipated to work on this project.
