

SCOPE OF WORK

Project: Interstate Route H-1 Airport Viaduct Improvements
Vicinity of Valkenburgh Street to Middle Street, Phase 2
District of Honolulu, Island of Oahu

Project No.: NH-H1-1(276)

BACKGROUND

Project Location Route H1, MP 15.75 to MP 19.10

SCOPE OF SERVICES

Assist the Hawaii State Department of Transportation's (HDOT's) Highway Division in construction management services for this project. Project may require day, night, and weekend work.

STAFFING NEEDS

HDOT requires the Consultant to provide one construction manager (equivalent to a State Highways Engineer V), one field engineer (equivalent to a State Highways Engineer III), three construction inspectors (equivalent to a State Highways Construction Inspector IV) and one field clerk on a full-time basis, and an environmental engineering support services consultant on a part-time basis that specializes in all Federal and State permit and monitoring requirements and one construction scheduler on a part-time basis to assist the Highways Division during the construction of this project. The above is an estimate of the required manpower. The State reserves the right to adjust the manpower requirements as necessary during the project duration. Provide resumes of at least two qualified construction managers and field engineers, one field clerk, five qualified construction inspectors, a public relations specialist and environmental consultants that are anticipated to work on this project.

REQUIRED EQUIPMENT

Vehicle
Cellular Phone
Computer
Color Printer/Fax/Copier/Scanner

METHOD OF PAYMENT

Agreed Rates of Pay for labor and equipment.
