

GUIDELINES FOR PREPARING CONSULTANT PROPOSALS FOR HIGHWAYS DIVISION PROJECTS

The purpose of these guidelines, developed by the Department of Transportation (HDOT) - Highways Division, is to standardize the format and content of consultant proposals to help assure fair and proper evaluation. This standardized format should also reduce the proposal preparation time, and simplify the review process by HDOT personnel.

In order for HDOT's consultant screening committee to evaluate each proposal properly, it is important that each submittal be clear, concise, and prepared in accordance with the proposal format requirements in the table below. The table lists the criteria by which proposals will be evaluated, and the maximum number of pages allowed to discuss each criterion. Proposals must address all criteria listed, and must include a completed certification of non-exclusion to be considered complete in accordance with these guidelines. Incomplete proposals will not be considered for selection. Please tab the various sections in the submittal for easy reference.

PROPOSAL FORMAT REQUIREMENTS

Criteria	Points	Max. No. of Pages
Introductory letter, number of years in business, references and office locations		2
Experience and professional qualifications relevant to the project.	31	2
Past performance on projects of similar scope for public agencies or private industry, including corrective actions and other responses to notices of deficiencies.	30	2
Capacity to accomplish the work in the required time.	29	2
Innovative or alternative methods and anticipated concepts for furnishing the required services.	10	2
Appendix: Resumes of key personnel		1 pg/person Max.
Appendix: Company Brochure (optional)		
Appendix: Completed Certification of Non-Exclusion		
MAXIMUM TOTAL	100	

The number of pages per consultant proposal must not exceed the maximum pages allowed per criterion. A page is considered to be letter size, printed on one side, single-spaced, with characters no smaller than 12 point (Times New Roman font, or similar, preferred). Any proposal containing pages in excess of the maximum number allowed per criterion excluding the title page, introductory letter, table of contents, tabs, and appendices will receive a 5-point penalty for each page over the limit. Only the first two pages of an introductory letter and the first page of the resume will be considered for review.

After the selection letter has been received by the consultant, any change in key personnel or sub-consultants will require written approval by the State.

PROPOSAL EVALUATION CRITERIA FOR DESIGN SERVICES

The criteria presented below will be used for evaluating proposals from interested consultants. The consultant receiving the highest total score will be the top ranked consultant for the project. If the total score of two or more firms are equal, past performance will be the governing criteria.

1. Experience and professional qualifications relevant to the project.

The prime consultant's and/or sub-consultant's project manager must be experienced in managing projects of similar nature and scope, and shall be a professional engineer licensed in the State of Hawaii. The resume of the project managers must be included in the proposal.

The consultant shall designate experienced professional and technical staff to competently and efficiently perform the work, either through their own personnel or sub consultants. The proposal shall identify the project team composition, project leadership, reporting responsibilities, and address how sub consultants will fit into the management structure. The HDOT evaluation will be performed on the team, and not just the personnel of the prime consultant, so resumes of key design team members must be included in the proposal.

2. Past performance on projects of similar scope for government and public agencies, or private industry, including corrective actions and other responses to notices of deficiencies.

The consultant proposal shall include a list of similar projects that the consultant worked on and successfully completed. The project name, contact person, and phone number of the government, public and/or private agencies should be included in the list. The proposal shall indicate the consultant's past performance in terms of cost control, quality of work and compliance with performance schedules.

3. Capacity to accomplish the work in the required time.

The consultant must demonstrate that sufficient knowledgeable staff is available, and that any sub consultant hired by the consultant is experienced and capable of performing the work.

The consultant proposal shall contain a list of current HDOT projects. The list should include project name, start date, and estimated consultant contract completion date. In addition, the list should identify any key team members and sub consultants proposed for this project presently assigned to the list of current projects.

4. Innovative or alternative methods, and anticipated concepts for furnishing the required services.

The consultant shall indicate any innovative, unique or alternative methods that would be used to perform the required services. Proposals should include anticipated concepts to complete the project, and should present any modern and cost-effective design methods or special project related techniques that would benefit the project.
